Toni Liskiewicz Appointed Assistant Superintendent

The Wayne Township Board of Education approved the appointment of Mrs. Toni Liskiewicz to serve as the next Assistant Superintendent of Schools effective immediately. Mrs. Liskiewicz brings a wealth of expertise to the position from her work in Wayne, where she successfully served the community as Director of Secondary Education and Principal of Lafayette Elementary School.

Prior to her work in the Wayne Township Public Schools, Mrs. Liskiewicz worked for three years as a high school Vice Principal and six years as an elementary Principal, both in Plumsted Township. Mrs. Liskiewicz also has prior teaching experience at the middle school and high school levels. In addition, Mrs. Liskiewicz held other significant responsibilities during her career such as Emergency Management Coordinator and Affirmative Action Officer.

Mrs. Liskiewicz is a proud graduate of Middletown South High School. She attended Villanova University for her undergraduate degree. In addition to her undergraduate work at Villanova, she holds two graduate degrees in education. One of her graduate degrees is from Boston College and the other is from Monmouth University.

Mrs. Liskiewicz has a unique and comprehensive background due to her prior experiences as a teacher and administrator at both the elementary and secondary levels. She has been involved in a variety of pursuits in the Wayne Township Public Schools. At the secondary level, she, along with a number of teachers and administrators, brought the work study program and the structured learning experience program back into the district. Both programs were very well-received with an enrollment that continues to increase dramatically. Mrs. Liskiewicz also partnered with a number of colleges and universities to allow students to earn college credit while still attending high school. A number of students have already enjoyed the benefits of graduating high school with a

significant number of college credits. She also worked with teachers and administrators to update the elective offerings at each high school and oversaw the development of a number of new and exciting electives, such as, sports medicine, war in literature and film, accounting, college composition, and college business.

Superintendent of Schools Dr. Mark Toback commented “Toni Liskiewicz has been a major contributor in advancing professional development programs in the district for both administrators and teachers. Toni was a driving force behind the successful implementation of our new math program and preparing the district for the Next Generation Science Standards. She also was involved in revising our mentoring program for our new teachers. She has a proven track record of taking on important projects and responsibilities and delivering an excellent work product. We are thrilled to see Toni promoted to Assistant Superintendent. She has an educational vision combined with the skills and work ethic necessary to carry out that vision for the benefit of Wayne students.”

In her time away from the Wayne Township Public Schools, Mrs. Liskiewicz enjoys spending time with her husband and three children. She loves going to the beach and reading a good book. She is a lifelong fan of the Giants, Rangers, and Yankees.
